Assessment Arrangements

For Junior Cycle and Leaving Certificate
Examinations 2024

September 2023

20
24

Introduction

This updated document sets out the adjusted assessment arrangements for post-primary students taking certificate examinations in the 2023/24 school year. The adjustments, which are similar to those that were made for the students taking examinations in 2023, have been arrived at through discussions between the Department of Education (DE), the State Examinations Commission (SEC) and the National Council for Curriculum and Assessment (NCCA) and key stakeholders.

Changes to the national assessment arrangements have been made with due regard for the principles of equity, fairness and integrity as these principles apply to assessment and examinations and refer to student-to student, subject-to-subject, and year-to-year comparisons. Overall, the changes can be viewed as reflecting and recognising the disruption to learning students experienced in a fair manner with contingency for future disruption to the learning experience of students that may occur during the 2023/24 school year also built in. They provide clarity, certainty and reassurance to students, their parents/guardians, teachers and schools in advance of the start of the 2023/2024 school year.

The document details the adjusted assessment arrangements for every subject/module descriptor in the Leaving Certificate Established, Leaving Certificate Applied, Leaving Certificate Vocational Programme and Junior Cycle programmes. When you click on the relevant subject title, you will be brought to the page detailing the particular arrangements for that subject.

Senior Cycle

SENIOR CYCLE

For the Leaving Certificate Established (LCE), Leaving Certificate Applied (LCA) and Leaving Certificate Vocational Programme (LCVP) examinations, there will be no change to the duration of the written examinations. For LCE subjects, some additional choice will be incorporated into the written examinations as detailed on the relevant subject page.

For subjects where the State Examinations Commission (SEC) issues project briefs during the 2023/2024 school year, the intention is to generally issue these at least four weeks earlier than normal. Teachers are encouraged to plan and undertake these projects as early as possible in the programme of study within the context of any current and future public health measures which may apply. In the case of subjects where the coursework briefs issued in the 2022/2023 school year and have a completion date in the 2023/2024 school year, normal timelines for completion will apply.

The adjusted assessment arrangements to the LCA Programme and the LCVP are accessed by clicking the programme title on the right.

Accounting	Agricultural Science	Ancient Greek
Applied Maths	Arabic	Art
Biology	Business	Chemistry
Classical Studies	Computer Science	Construction Studies
Design and Communications Graphics	Economics	Engineering

Mandarin Chinese	Mathematics	Music
Physics & Chemistry	Physical Education	Physics
Politics and Society	Polish	Portuguese
Religious Education	Russian	Spanish
Non-Curricular Languages	Technology	
Leaving Certificate Applied Programme	Leaving Certificate Vocational Programme	

Junior Cycle

JUNIOR CYCLE

With regard to Junior Cycle, the National Council for Curriculum and Assessment (NCCA) has published the revised arrangements for Classroom-Based Assessments for students entering third year in 2023, and these are available here:

[CBA revised arrangements for students in third year in 2023/24.](#)

Each student must complete a minimum of one CBA in each subject and short course. Students taking the junior cycle final examinations in 2024 will not be required to complete Assessment Tasks for the relevant subjects. The grade descriptor awarded for these subjects will be based on the examination paper only. Specific arrangements have been put in place for Music, Visual Art, Home Economics, Wood Technology, Applied Technology, Engineering and Graphics and are detailed in the relevant section.

Applied Technology	Visual Art	Business Studies
Classics	Engineering	English
French	German	Geography
Graphics	History	Home Economics
Irish	Italian	Jewish Studies
Mathematics	Music	Religious Education
Science	Spanish	Wood technology
