Fiserv Future Techies

Transition Year Programme
2–6 November 2026

Who are Fiserv?

©2026 Fiserv, Inc. or its affiliates.

Who we are

- Fiserv is the technology company behind the payments people make every day
- Tap a card in a shop or open your banking app and there is a good chance we are in the background
- We sit between shops, banks and card networks, moving money and data in seconds

fiserv.

The eight modules you will cover

Five days, eight hands-on sessions across FinTech, payments and AI.

1. The evolution of money

How Fiserv enables this modern money world

2. Cash to Clover challenge

Meet the Clover POS devices, then design and set up a real small business in teams

3. Project Management

How Fiserv teams turn an idea into working technology

4. AR and VR

Explore Augmented and Virtual Reality technology and create immersive digital experiences that blend the physical and virtual worlds

5. App fundamentals

What sits behind the apps you use every day

6. Data and visualisation

Run an experiment, then turn your results into visuals

7. AI and machine learning

Program FINCH robots and use AI recognition technology recognise images and complete a function based on this

8. Cyber security

Crack the code in a hands-on security challenge

Why it's worth applying

You leave with real experience, not just a week out of school.

- See what technology careers actually look like, up close
- Work directly with engineers, product managers and cyber specialists
- Go beyond traditional work experience with access to a diverse network of Fiserv professionals and career paths
- Learn how to present your ideas and be listened to
- Find out how people got into tech — including routes that aren't university

©2026 Fiserv, Inc. or its affiliates.

Who we're looking for

What helps your application

- Genuine curiosity about how technology works
- Willingness to get stuck in and try things that might not work
- Teamwork, and a specific reason this week draws you in

What you don't need

- Any coding experience at all
- A perfect report card
- A tech family background, or a plan for after school

©2026 Fiserv, Inc. or its affiliates.

How to apply

We really want to see your creativity and out of the box thinking so the sky is the limit.
Share with us a:

- Short video (not more than 2 minutes)
- A colourful presentation in pdf form

That covers a topic you are curious about within payments.
We're excited to learn about you and your talents, interests and personality so choose whatever form excites you most .

Be sure to share your content in one of two ways:

1. Video – MP4
2. Presentation – PDF

PLEASE NOTE: We cannot accept applications as Google Drive Links. Please send applications as attachments.

Email us your application before: 15th October 2026
